Methomyl Back Pocket Qs and As ap.docx

Kimberly,

Keeping you in the loop, given that we need to provide feedback on the attached Q & As today. I think the technical leads for these chemicals need to review and comment...at this point, probably Christina Wendel (methomyl) and Amy Blankinship (carbaryl).

Thanks,

Anita

Dian,

Ex. 5 - Deliberative Process

I've cc'd Phil Villanueva, who has been coordinating the ESA work. Phil - please coordinate review w the appropriate technical staff.

Thanks,

Anita

Hi Khue and Anita,

Received this email yesterday from Cheryl Dunton, the OCSPP Web person who works with Linda Strauss. Wendy has approved the OPP Update as it appear below and want background Qs and As. I took a stab at that and drafted the attached for methomyl. Carbaryl would be similar to whatever you approve for methomyl. Please review and give me your feedback – the earlier, the better since she'd like to get stuff today.

Thanks,

Dian

Wendy cleared this. OPA said it can go on Monday. Note I changed the last paragraph to reflect the FRN. You'll need to fill in the length of the comment period.

Wendy wants background Qs and As on what each BE says. Just a short paragraph or two for each one should be fine. Can you get those to me by COB tomorrow?

Where are we on the web? Are the documents loaded and ready to go? Do you have test pages?

Finally, Angela has the FRN for this.
